

Just gotta know (Daniel Goguen)
(auteur-compositeur = Daniel Goguen)

The first time I laid my eyes on you
I just couldn't believe
How my heart was taken by
A beauty I'd never seen

Now maybe I'm a little bit forward with this
Still I think that you should know
About something tearing me up inside
And I can't hold it anymore

I just gotta know how loving you would feel
And I just gotta hold your body close to me
And I just want to feel how good it seems to be
Girl I just gotta know

Now girl I hope that you're ok with what I'm saying
Cause it's exactly how I feel
And this is not a game that I'm playing
What I got here is real

I just gotta know how loving you would feel
And I just gotta hold your body close to me
And I just want to feel how good it seems to be
Girl I just gotta know
